PHASE A - SCENT DETECTION		MAX POINTS
The search area must be set up out of view of any handler or competitor entered. The search area will be 2 vehicles and 15 bags/luggage, the odor hides will be placed inside the search items 30 to 90 minutes prior to the first trial dog running the search area. All bags/luggage will be spaced 3 feet apart on all sides, with no walls, no barriers, and no objects within 3 feet of any item. Time Limit will be 6 minutes to complete the search. If the time expires, the dog/handler team is pointed up to when the time expired. Once the handler is satisfied the area is clear, the handler must state "CLEAR" at which time the search clock/timer will end. The clock will continue until the handler states CLEAR. A deduction of 10 points will be taken if handler does not state CLEAR to end the search.	Performance of the Search	15
	Clear Call	10
	3 Hodgdon Pyrodex RS (black powder)	75

Drive		Technique		Coordination	
Willingness to Work	Drive	Take Up of Scent	Works Confidently	Response to Command	Conflict Free
Concentration	Endurance	Consistence			

Search area sketch/description:

Scoring Criteria:

- False indication(25 points deducted; on second false, search is stopped and points awarded up to second false)
- If dog alerts but handler does not call alert (7pts)
- Disruption of the hide (4-8 pts)
- Dog breaking position early (2-4 pts)
- Lack of drive (3-8 pts)
- Dog does not take direction to resume search (3-8 pts)
- Handler corrects the dog to resume search (disqualified)
- Urinating or defecating in search area (disqualified)
- Out of control (disqualified)

Judges Sheet – AS3

Judging Criteria for the Protection Work

Courage, Hardness and Fighting Instinct Rating – The courage evaluation serves the purpose of describing two general aspects of a dog's character trait that are demonstrated throughout the Phase C exercises. The first, "courage", describes the dog's willingness to engage the helper during the exercises. The second, "hardness", describes the dog's strength in its defense against the helper's attacks and pressure. The purpose of this rating is to more carefully show a dog's breeding suitability and character traits.

Ratings for Courage, Hardness and Fighting Instinct:

Praise Worthy Pronounced - 10

Pronounced – 9-8

Present – 7-6

Insufficient – 5-0

The Judge shall consider the following in determining the overall rating for a dog in Phase C:

Praise Worthy Pronounced a dog that shows a strong willingness to work, determination in its performance, dominance, notable physical strength, self-confidence, attentiveness, and copes well with a severe amount of stress (the best of the best).

Pronounced a dog that shows a willingness to work, dominance, self-confidence, attentiveness, and copes with severe amount of stress and shows slight deviation from the Praise Worthy dog.

Present is given to a dog that has limitations concerning its willingness to work, self-confidence, attentiveness and ability to cope with stress.

Insufficient is given to a dog with insufficient willingness to work, lack of self-confidence and an insufficient ability to cope with stress.

IT IS THE RESPONSIBILITY OF THE JUDGE TO OBSERVE THE OVERALL ATTRIBUTES OF THE DOG. THE OVERALL PICTURE SHOULD BE ONE OF INTENSITY AND SELF – CONFIDENCE. THE DOG MUST SHOW DOMINANCE IN THE HOLDING AND GUARDING PHASE. ONLY WHEN A DOG DEMONSTRATES THESE CHARACTERISTICS ALONG WITH A SENSE OF PHYSICAL AND PSYCHOLOGICAL STRENGTH CAN A RATING OF 10 BE AWARDED.

Only dogs showing all expected behaviors can achieve the highest Courage, Hardness and Fighting Instinct rating of 10. Small deviations from the above statements will be allowed for a Pronounced rating of 9-8.

AT ALL LEVELS THE DOG IS EXPECTED TO SHOW A TRANSITIONAL PHASE (2 SECONDS). THIS OCCURS WHEN THE HELPER STOPS, BEFORE THE COMMAND TO OUT IS GIVEN.

Definition of Transitional Stage: When the Helper stands still after attacking and driving the dog, the dog must continue to fight the Helper for 2 seconds. Examples: the dog can pull, push, or simply continue to bite until the handler commands out.
